Who We Are

BHW Bayerische Heilmittel Wissenschaften GmbH is a German life sciences company headquartered in Bavaria, with an additional office in Frankfurt's iconic Omniturm. We specialize in the research, development, manufacturing, and international distribution of food supplements, pharmaceuticals, medical devices, cosmeceuticals, and CBD-based health products.

Rooted in the heritage of German scientific excellence and supported by GMP- and ISO-certified manufacturing across Germany, Switzerland, and Spain, BHW serves healthcare providers, distributors, and wellness-driven consumers across Europe, North America, and the Middle East.

Our brands — including Schutz®, CollaMouv®, GesünDélé Beans®, EctoVelle®, BHW Silicolgel®, Cebedi®, and Transderm Verpatch® — are engineered with evidence-based precision to deliver real-world health outcomes while meeting the highest international safety and regulatory standards.

Through our BHW OncoScience business unit, we are expanding into specialized oncology solutions, with a focus on non-invasive radiotherapy technologies and supportive care for cancer patients. In collaboration with leading clinical experts, we are introducing advanced treatment platforms such as the Xstrahl 200 to North Africa, aiming to improve access to targeted skin cancer and cutaneous lymphoma treatments. This initiative reflects our commitment to bridging innovation and accessibility in oncology care, fostering partnerships that translate medical advances into meaningful patient outcomes.

What We Do

At BHW, we are committed to delivering innovative, clinically inspired, and consumer-ready wellness solutions. From functional liquid shots and Ultra-Pure CBD formulations to collagen therapies and dermatological creams, we design every product to be effective, safe, and globally compliant.

Through strong partnerships and robust product development capabilities, we also serve as a trusted private label and contract manufacturing partner for companies seeking to launch high-quality gummies, capsules, liquids, and topicals — made in Europe and backed by science.

**Research that
matters.
Solutions that
last.**

Our Mission

To advance global health by creating science-backed wellness products that are effective, elegant, and accessible. We aim to empower individuals, support practitioners, and enable partners to grow with trust, integrity, and value.

Our Vision

To become one of Europe's most respected names in functional wellness, health innovation, and contract manufacturing, by blending Bavarian reliability, scientific rigour, and ethical business growth. We strive to be the preferred choice for our people, distributors, healthcare professionals, private label clients and employees worldwide.

How we do it

BHW's strength lies in its international, multilingual, and multidisciplinary team — combining expertise in medical affairs, regulatory strategy, product innovation, supply chain, and international business development.

Our teams collaborate across the following key functions:

- Sales & Business Development
- Marketing & Brand Strategy
- Regulatory Affairs & Compliance
- Medical & Scientific Affairs
- CRM & International Partnerships
- Finance & Risk Management
- Supply Chain & Operational Logistics
- Innovation & Product Formulation
- HR & Knowledge Management
- ESG, Sustainability & Community Outreach

We don't just deliver products — we deliver trust, value, and long-term success for our partners and global clients.

Our Core Values

K.R.A.F.T.

At BHW, our values are built on KRAFT — the German word for strength — reflecting the scientific discipline, ethical action, and partnership mindset that power everything we do.

K Knowledge & Innovation

We foster a culture of continuous learning and purpose-driven innovation. Every product begins with evidence, evolves through research, and delivers real-world results.

R Responsibility & Sustainability

We are committed to responsible practices — from ethical sourcing to environmental stewardship — ensuring we protect both people and planet.

A Action-Oriented

We don't just plan, we execute. We take initiative, adapt swiftly, and focus on solutions that drive impact across every part of our business.

F Forward-Looking Partnerships

We grow through collaboration. By building meaningful, long-term relationships with distributors, healthcare professionals, and suppliers, we create lasting value.

T Transparent & Trustworthy

We lead with integrity and openness. Whether in regulatory compliance, product quality, or global business conduct, trust is the foundation of how we operate.

Why choose BHW Silicol®gel?

Easy to take

- BHW Silicol®gel is a neutral-tasting oral gel that can be taken on a spoon, in a glass, or from a single-dose sachet.
- It can also be mixed with water for convenience.

Effective

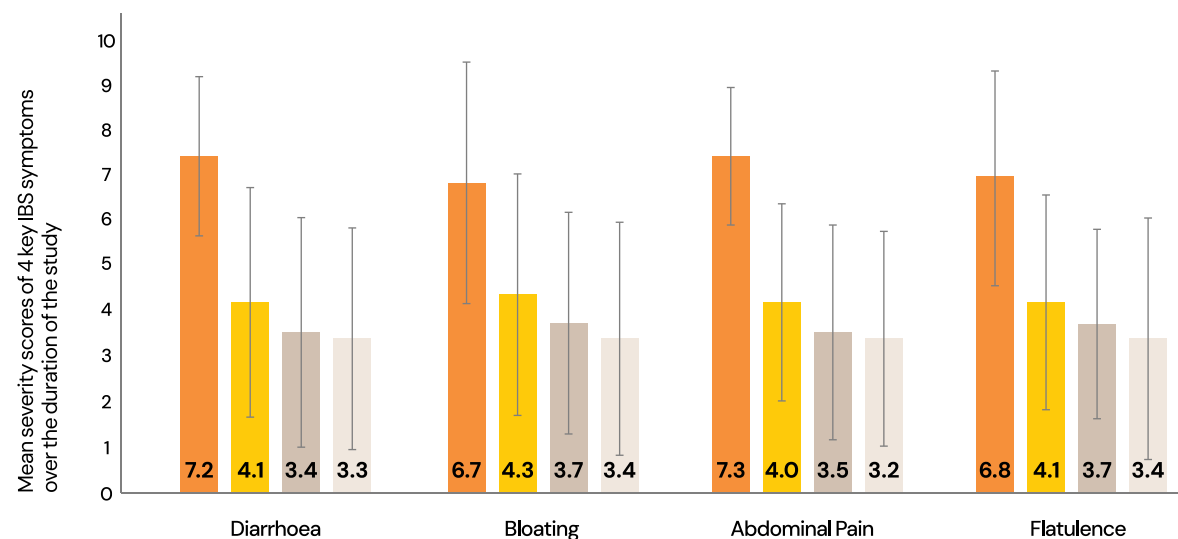

- When taken three times daily, BHW Silicol®gel helps relieve IBS symptoms such as diarrhea, abdominal pain, bloating, and flatulence.
- It also provides relief from reflux, nausea, and heartburn.

Clinically proven

- BHW Silicol®gel has been clinically shown to reduce IBS symptoms including diarrhea, stomach pain, bloating, and gas.
- In a recent study, 84% of users experienced significant improvement in key IBS symptoms within just four weeks.*

*Efficacy of the enteroadsorbent silicolgel in adults with irritable bowel syndrome subtypes IBS-D or IBS-M, Gastroenterology & Practice, Crawford et al., 2023

Frequently Asked Questions (FAQ)

Can BHW Silicol®gel be taken with prescribed & Over the Counter (OTC) medicines?

Yes. You can take BHW Silicol®gel with a gap of at least 1 hour before or after the intake of medicines.

What is the standard dosage for adults?

1 tablespoonful (15ml) three times daily an hour before meals.

Can BHW Silicol®gel be taken by children?

Please seek medical advice before use by children under 12.

Can BHW Silicol®gel be diluted?

Yes. It can be taken either undiluted or diluted (with water), and diluting does not reduce its effect.

Can BHW Silicol®gel be taken long-term?

Yes. We recommend using for 4 weeks followed by a break of between 4 to 7 days. This provides an opportunity to check that symptoms have settled which may indeed reduce the need to take BHW Silicol®gel as frequently. Start using BHW Silicol®gel for another 4 weeks and repeat the break.

What are the ingredients?

3.5g Silicon Dioxide in 100ml Silicic Acid gel.
Preservatives: Sorbic Acid (E200) & Sodium Benzoate (E211).

What is the difference between adsorption and absorption?

The particles in BHW Silicol®gel adsorb, as opposed to absorb. Adsorption is the accumulation of molecular species at the surface rather than in the bulk of the solid or liquid.

Should I store BHW Silicol®gel in the fridge?

No. BHW Silicol®gel should not be refrigerated.

After opening how long can I use a bottle of BHW Silicol®gel for?

The bottle can be used for up to 3 months after first opening.

Should I shake the bottle before use?

The bottle can be used for up to 3 months after first opening.

What should I do if my symptoms have not reduced after 3 days?

Consult a Medical Doctor.

Is BHW Silicol®gel suitable for Vegans & Vegetarians?

BHW Silicol®gel does not contain any ingredients of an animal source or of products produced from animals. Therefore, BHW Silicol®gel is suitable for both vegans and vegetarians.

Frequently Asked Questions (FAQ)

Can BHW Silicol®gel be taken during pregnancy and while breastfeeding?

We recommend you consult your doctor before using BHW Silicol®gel when either pregnant or breastfeeding.

Does BHW Silicol®gel remove nutrients and good bacteria?

BHW Silicol®gel does not remove nutrients and “good bacteria”. It binds and removes toxic matter (bacteria) which, under normal circumstances, shouldn't be present in the gastrointestinal tract.

I have a nut allergy. Can I take BHW Silicol®gel?

Yes. BHW Silicol®gel is allergen free.

I have a gluten allergy. Can I take Silicol®gel?

Yes. BHW Silicol®gel is gluten free.

I have Crohn's Disease. Can I take BHW Silicol®gel?

Yes, BHW Silicol®gel is suitable for those suffering from Crohn's Disease.

I have Ulcerative Colitis. Can I take BHW Silicol®gel?

Yes, BHW Silicol®gel is suitable for those suffering from Ulcerative Colitis

Is BHW Silicol®gel a natural product?

Yes. BHW Silicol®gel contains silicic acid which is a compound of the mineral substance silicon and oxygen in a colloidal (highly dispersable) and hydrated form. Silicon is the second most abundant element on Earth, after Oxygen. It is found in nature as silicon dioxide and in the hydrated or aqueous form as silicic acid.

Cebedi®

Scientifically crafted for modern wellness, with purity you can trust.

- Ultrapure & lab-made CBD
- THC-free
- Among the first CBD brands worldwide classified as food supplements by regulatory authorities in United Kingdom, Saudi Arabia, Jordan, and UAE — first-ever synthetic CBD food supplements accepted for registration.

Why Cebedi® Lab-Made CBD?

CBD (Cannabidiol) can be created in two very different ways:

1. Plant Extraction — isolating CBD from cannabis plants and attempting to filter out impurities.
2. Scientific Synthesis — producing CBD in a laboratory environment with pharmaceutical precision.

The challenge with plant-derived CBD is purity. Even with the most advanced extraction methods, it is nearly impossible to eliminate all unwanted compounds. Trace levels of other cannabinoids, including THC, often remain — and THC is the psychoactive and addictive element of cannabis.

At Cebedi®, part of the Heilmittel Group, we take a fundamentally different approach. Our Ultra-Pure CBD is scientifically crafted, not farmed, using a sustainable process that starts with natural raw materials such as citrus fruits. By mimicking the exact DNA blueprint of the cannabis plant, our scientists create pure CBD molecules without contaminants, THC, or agricultural variability. The result: consistent, ultra-safe CBD you can trust every single time.

**Ultra-Pure CBD.
Ultra Safe. Ultra You!**

Scientifically Crafted. Clinically Backed.

Cebedi® Ultra-Pure CBD is more than just clean — it is clinically validated and regulator-approved.

- Rigorously tested under OECD guidelines and Good Laboratory Practice (GLP) principles.
- Full toxicology studies commissioned in line with the European Food Safety Authority (EFSA) and UK Food Standards Agency (FSA) standards.
- These proprietary studies were critical to secure novel food approvals and global recognition of Cebedi®'s safety and reliability.

Our CBD contains 0% THC and is free from pesticides, heavy metals, and impurities commonly found in hemp-derived CBD products. This positions Cebedi® not only as a safer alternative, but as a new scientific standard for CBD supplements.

Why Choose Cebedi®?

- Ultra-Pure — made in the lab, not the field, ensuring unmatched purity.
- Ultra-Safe — 0% THC, free from contaminants, fully tested and validated.
- Ultra-Consistent — same quality, same strength, every batch.
- Scientifically Crafted — born from German precision and Heilmittel innovation.

Global Firsts. Global Trust.

Cebedi® is proud to be among the first CBD brands worldwide classified as food supplements by regulatory authorities.

- United Kingdom — approved as a novel food by the FSA.
- Saudi Arabia, Jordan, and UAE — first-ever synthetic CBD food supplements accepted for registration.
- Europe and Canada — currently in advanced regulatory discussions.

This leadership reflects our mission: bringing science-driven CBD innovation to global wellness.

Cebedi® Oral Portfolio

At Cebedi®, we believe wellness should be guided by science, purity, and precision. Our oral CBD range has been scientifically crafted with pharmaceutical-grade consistency, offering consumers two convenient dosage forms: fast-absorbing oils (drops and sprays) and advanced-absorption capsules. Whether you value rapid onset, flexible dosing, or precise daily intake, Cebedi® provides the right format for modern wellness needs.

Pure ingredients.
Proven results.

Uses of **Cebedi®** Ultra-Pure CBD

Cebedi® oral supplements are designed to fit seamlessly into modern wellness routines, delivering the benefits of pharmaceutical-grade, THC-free CBD with consistency and precision.

As part of a balanced lifestyle, Cebedi® may support:

- Daily Balance & Wellbeing — helping you feel centred and grounded.
- Stress & Lifestyle Management — easing the pressures of busy routines.
- Relaxation & Recovery — promoting rest after physical or mental exertion.
- Focus & Mental Clarity — supporting concentration and calm thinking.
- Active Lifestyle Support — contributing to comfort, flexibility, and mobility.

Backed by science and crafted with German precision, Cebedi® — Ultra-Pure CBD. Ultra Safe. Ultra You!

Choose your **Cebedi®** Product

Cebedi® Spearmint Oil Drops 560 mg / 10 ml bottle

Fresh, clean, and reliable — our Spearmint Oil Drops deliver 20 mg of Ultra-Pure CBD per serving, designed for fast absorption and a refreshing taste. Ideal for those seeking a simple and natural way to integrate CBD into their daily wellness routine with scientific precision and consistency.

How to use:

1. Shake bottle well and fill the dropper.
2. Place oil under the tongue, hold for 60 seconds, then swallow.
3. One serving = 20 mg CBD.
4. Can be taken with or without food, any time of day.

Cebedi® Unflavoured Oral Spray 560 mg / 10 ml bottle

For those who prefer purity without added flavour, this high-strength oral spray provides 20 mg of Ultra-Pure CBD per serving. A discreet, fast-absorbing format engineered for professionals and individuals who value efficiency and clean science in their wellness choices.

How to use:

1. Shake before use.
2. Spray twice under the tongue, hold for 60 seconds, then swallow.
3. One serving = 20 mg CBD.
4. Can be taken with or without food, any time of day.

Cebedi® Orange Oral Spray 280 mg / 10 ml bottle

Infused with a bright citrus flavour, our Orange Oral Spray delivers 10 mg of Ultra-Pure CBD per serving. Perfect for those new to CBD or seeking a lower daily dose in a pleasant, refreshing format. Scientifically crafted for consistency and ease of use.

How to use:

1. Shake before use.
2. Spray once under the tongue, hold for 60 seconds, then swallow.
3. One serving = 10 mg CBD.
4. Can be taken with or without food, any time of day.

Cebedi® Spearmint Oral Spray 280 mg / 10 ml bottle

Cool, crisp, and convenient — the Spearmint Oral Spray offers 10 mg of Ultra-Pure CBD per serving in a low-dose, fast-absorbing format. Designed for flexibility, it is ideal for daily use, beginners, or those who want light, refreshing CBD support throughout the day.

How to use:

1. Shake before use.
2. Spray once under the tongue, hold for 60 seconds, then swallow.
3. One serving = 10 mg CBD.
4. Can be taken with or without food, any time of day.

Cebedi® Unflavoured Oral Spray 280 mg / 10 ml bottle

Pure and simple — this unflavoured oral spray provides 10 mg of Ultra-Pure CBD per serving. Designed for those who prefer CBD without added taste, while still benefiting from the fast absorption and convenience of a spray format.

How to use:

1. Shake before use.
2. Spray once under the tongue, hold for 60 seconds, then swallow.
3. One serving = 10 mg CBD.
4. Can be taken with or without food, any time of day.

Cebedi® Capsules 20 mg — 28-serving pack

For those who value precision and simplicity, our 20 mg CBD Capsules offer accurate dosing in a convenient daily format. Ideal for consistent, long-term use, these capsules ensure scientific quality with every dose — no taste, no hassle, just trusted CBD.

How to use:

1. Swallow one capsule with water.
2. One serving = 20 mg CBD.
3. Can be taken with or without food, any time of day.

Cebedi® Capsules 20 mg — 7-serving pack

A travel-size format designed for flexibility. Our 7-day pack of 20 mg CBD Capsules offers a convenient introduction to CBD or a reliable option for those on-the-go. Same premium quality and precision dosing, just in a smaller, portable pack.

How to use:

1. Swallow one capsule with water.
2. One serving = 20 mg CBD.
3. Can be taken with or without food, any time of day.

Cebedi® Capsules 10 mg — 28-serving pack

A gentle, low-dose option, our 10 mg CBD Capsules are perfect for beginners or those seeking a lighter daily intake. Designed for easy integration into any wellness routine, with the same clinical precision and safety as our higher-dose products.

How to use:

1. Swallow one capsule with water.
2. One serving = 10 mg CBD.
3. Can be taken with or without food, any time of day.

Frequently Asked Questions (FAQ)

Will Cebedi give me a high and is it addictive?

No. The entire Cebedi CBD range is 0% THC, meaning it will not cause a high, is non-addictive, and has no psychoactive effects.

What makes Cebedi different?

Cebedi Ultra Pure CBD contains only CBD and nothing else. Unlike plant-derived CBD, it is created through advanced mixing, filtration, and distillation processes, resulting in a pure CBD molecule that mimics the DNA of natural CBD without any psychoactive parts. This ensures NO pollutants, toxins, terpenes, heavy metals, pesticides, or other cannabinoids — just pure CBD.

Why is 20mg the highest daily intake when other CBD brands recommend higher dosages?

With Ultra Pure CBD, less is more. Because Cebedi is not extracted from the cannabis plant, a lower daily intake delivers the same benefits as higher-dose plant-derived CBD. That's why our range is offered between 280mg and 560mg.

What is the difference between the oils and capsules?

We've designed the Cebedi range for flexibility and convenience. If you prefer capsules, choose our 10mg or 20mg formats. If you prefer oils, try our great-tasting oral drops with an interchangeable top.

How long does it take to notice effects?

Cebedi products are fast-absorbing, but consistency is key. Most users notice a difference within 2–6 days.

Is it recommended to take Cebedi in the morning or at night?

There's no set time — it depends on your lifestyle. Examples of how people use it:

- 560mg oil at night + 280mg oil during the day
- 560mg oil at night + 1–2 capsules in the morning or during the day
- 560mg or 280mg oil at any time, day or night
- 10mg or 20mg capsules at any time, day or night

Are there any side effects?

Since launch, there have been no reported side effects or drug interactions. However, if you are currently taking other medications, we recommend consulting your doctor before using Cebedi.

Trademark Notice

Cebedi® is a registered trademark of Heilmittel Group. About Heilmittel Group
The Heilmittel Group is an international life-sciences ecosystem uniting two companies:

BHW Bayerische Heilmittel Wissenschaften GmbH (Germany) – headquartered in Bavaria with an additional office in Frankfurt, focused on R&D, manufacturing partnerships, and European operations.

NAH – North American Heilmittel Inc. (Canada) – managing North American operations, regulatory affairs, and distribution.

Together, the Heilmittel Group develops and commercializes science-driven health, wellness, and dermocosmetic solutions. With GMP-certified manufacturing partners in Germany, Spain, and Switzerland, the Group brings innovative brands like Cebedi®, CollaMouv®, Schutz®, and EctoVelle® to global markets.

CollaMouv®

CollaMouv® Line of products

Engineered Collagen Wellness for Joints, Bones & Life in Motion.

CollaMouv® is not just a product.

It's a growing line of collagen-based nutraceutical solutions designed to support joint and muscle flexibility, bone strength, skin vitality, and overall mobility for every stage of life.

Trusted by users worldwide, CollaMouv® helps relieve and manage common joint pain, such as that related to osteoarthritis, while promoting long-term cartilage health and structural resilience.

From the original CollaMouv® formula and the all-in-one CollaMouv® Plus, to our targeted innovations like CollaMouv® Schön (Beauty), CollaMouv® Athlete, and CollaMouv® Kids, the range is powered by Kölligreich®, our proprietary high-purity collagen matrix optimized for performance and measurable results.

EctoVelle®

The EctoVelle® dermocosmetic line is powered by Medectoin® – the medical-grade Ectoin® and comes in two specialized SKUs, each designed for a distinct skin condition:

- EctoVelle® Calm (Eczema Cream) – formulated for eczema-prone skin, targeting dryness, redness, and flare-ups.
- EctoVelle® Restore (Psoriasis Cream) – developed for psoriasis-prone skin, reducing scaling, inflammation, and discomfort.

Both creams are non-steroidal, clinically proven, and safe for babies from one month of age, children, and adults. They provide long-term daily care while strengthening and protecting the skin barrier.

Powered by natural
Medectoin®

EctoVelle®

For eczema and psoriasis
Without steroids, without worries.

EctoVelle® Calm

Eczema Cream

EctoVelle® Calm is a non-steroidal, therapeutic-grade cream specifically developed for skin prone to eczema and atopic dermatitis. Enriched with Medectoin®, it restores hydration, reduces redness and itching, and strengthens the skin barrier for long-lasting comfort.

For eczema-prone, sensitive skin
babies, children & adults

EctoVelle®

Target Groups

- Babies from 1 month of age
- Children with mild to moderate atopic dermatitis
- Adults suffering from chronic or recurrent eczema

Key Benefits

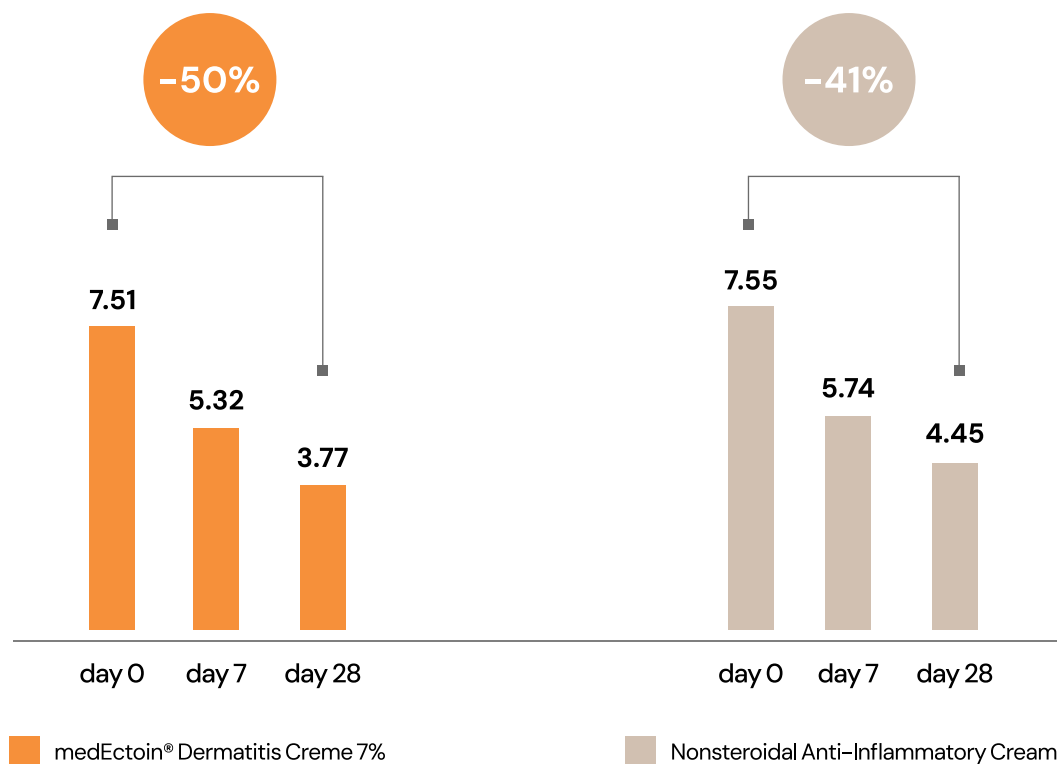

- Relieves itching, redness, and irritation
- Restores skin hydration & barrier protection
- Suitable for daily, long-term use
- Gentle formula for babies and children

Clinical Evidence

- Adults (65 patients, 18–65 yrs): 50% improvement in symptoms and >50% itch reduction after 28 days
- Children (60 patients, 7 months–14 yrs): Significant decreases in scratching (–56%), itching (–67%), and redness (–44%)
- Hydration Study: Single application increased skin water content by 61% for more than 24 hours

Directions for Use

Apply a thin layer to affected areas 1–2 times daily, or as recommended by a healthcare provider.

EctoVelle® Calm reduces Atopic Dermatitis Symptoms by 50%

EctoVelle® Restore

Psoriasis Cream

EctoVelle® Restore is a clinically proven psoriasis cream designed to reduce scaling, inflammation, redness, and discomfort. With Medectoin®, it soothes flare-ups, supports skin regeneration, and restores balance to sensitive skin.

For dry, scaly, inflamed skin
adults & children

EctoVelle®

Target Groups

- Adults with chronic psoriasis
- Children with dry, scaling skin conditions
- Suitable for long-term use without steroids

Key Benefits

- Reduces scaling, redness, and thickened skin
- Provides relief from itching and dryness
- Improves overall skin comfort and quality of life
- Safe for continuous daily use

Clinical Evidence

- 94 psoriasis patients: Up to 79% improvement in scaling, erythema, induration, pruritus, and dryness after 62 days
- Barrier Protection: Long-lasting improvements in hydration and skin comfort proven in multiple trials

Directions for Use

Apply 1-2 times daily to affected areas. In severe psoriasis, may be used up to 3-5 times daily.

Shared Features of the EctoVelle® Line

- Powered by Medectoin® – medical-grade EctoIn®
- Non-steroidal, safe for babies from 1 month, children, and adults
- Clinically proven efficacy across eczema, psoriasis, and sensitive skin
- Developed and manufactured in Germany
- Designed for long-term daily use

The Science of Medectoin® & Extremolytes

What is Medectoin®?

Medectoin® is the medical-grade version of Ectoin®, a natural molecule discovered in 1986 by German scientists in the Egyptian desert. This breakthrough finding revealed how microorganisms survive in extreme environments — from high salinity to intense heat — thanks to Ectoin®'s unique protective power.

Mode of Action

- Forms a Hydro-Complex shield around skin cells
- Stabilizes membranes and prevents stress-induced cell damage
- Binds water molecules, preserving hydration
- Reduces oxidative stress and modulates inflammation
- Protects against allergens and germs, preventing irritation and flare-ups

Ectoin® is the Cosmetics Ingredient of the Year 2024

Ectoin® was named Cosmetics Ingredient of the Year 2024 for its outstanding anti-aging and skin-protective properties. Leading skincare brands now incorporate Ectoin® into their formulations, offering consumers enhanced protection against environmental stressors, as seen in products like Anti-Aging Serums and Hydrating Creams.

Extremolytes – Nature's Toughest Molecules

EctoVelle® harnesses extremolytes, resilient natural molecules that:

- Protect and stabilize cells under stress
- Prevent inflammation and allergic reactions
- Promote natural healing and regeneration
- Deliver gentle yet powerful care without steroids or irritants

Thanks to their multi-functional properties, extremolytes are revolutionizing both medical and cosmetic skincare applications.

Frequently Asked Questions (FAQ)

What is the differentiation of EctoVelle® Creams from others?

Compared to other topical products that solely focus on relieving symptoms, EctoVelle Creams, rich in medEctooin®, calm, repair and protect the skin. They are especially effective for infants and children and also powerful for adults. They can be used as monotherapy for mild to moderate eczema or Psoriasis, as adjuvant, and/or over the long term without side effects.

Can EctoVelle® Creams cause allergies?

EctoVelle® Creams, unlike other topically-applied products, do not contain elements that may result in allergic reactions. This includes potentially allergenic substances, derivatives of animal origin and perfumes (fragrances). EctoVelle® Creams are free of parabens, mineral oils, and preservatives. EctoVelle® Dermatitis Cream 7% (EHK02) contains Shea butter (B.parkii) which help to moisturize and repair the skin. As a word of precaution, patients with a known allergy to these and/or known history of hypersensitivity to any of the ingredients should consult their doctor before using these products.

Are there any side effects?

There are no known side effects while using EctoVelle® Creams.

In rare cases (1 of 57.000) patients experience mild side effects such as short-term burning.

How do the medEctooin® in EctoVelle® Creams treat Atopic Dermatitis and Psoriasis?

medEctooin® Creams soothes dry, rough and sensitive skin.

Clinical studies with users of medEctooin® Cream showed significant improvements in the management of their skin:

- Provides skin hydration and repairs the skin barrier.
- Extent and severity of Atopic Dermatitis and Psoriasis are significantly decreased.
- Reduces symptoms such as itching, dryness, and redness.
- Can safely be used alone or in combination with other topical medications such as corticosteroids by adults and children.
- Clinically proven to be safe and effective in infants, children and adults.

Can the EctoVelle® Creams be used on the eyelids and around the eye area?

The area around the eyes can be sensitive. We recommend to consult your doctor prior to applying EctoVelle® Creams on your eyelids or around the eye area. Apart from this, medEctooin® Creams can be used without restriction on any other part of the body.

Are the medEctooin® Creams suitable for infants and children?

The medical devices are safe for use on infants above the age of one month, children and adults. They are clinically proven to be effective for mild to moderate cases of Atopic Dermatitis (eczema) and Psoriasis.

GesünDélé®

GesünDélé® Beans represent the next generation of daily vitamins — not gummies, but smart jelly beans. Designed to make nutrition joyful and compliant for all ages, GesünDélé® turns health into a daily ritual that's as fun as it is effective.

Each bean delivers a balanced mix of essential vitamins and minerals — including Vitamin A, C, D3, E, B6, B12, Folic Acid, Iron, Zinc, and Iodine — to support immunity, energy metabolism, growth, and cognitive development.

Why GesünDélé®?

- Next-generation format: Not gummies, but innovative jelly beans
- Contains essential vitamins and minerals for healthy daily development
- Higher physical stability in warm weather → preserves nutrition, taste, and appearance
- No sticking, no rigidifying → beans remain fresh after opening the container
- Richer taste → avoids boredom and guarantees compliance

The GesünDélé® Family

GesünDélé® Adults

Orange & Green Apple flavors for daily vitality and immunity.

GesünDélé® Girls

Strawberry & Vanilla flavors for growth and active living.

GesünDélé® Boyz

Cola & Green Apple flavors for strong, energetic kids.

Once GesünDélé®,
forever a bean lover.

GesünDélé^{Beans}

Beyond Gummies.
Welcome to the Vitamin
Bean Generation

GesünDélé® Adults

GesünDélé® Beans Adult – Orange and Green Apple Flavors bring a crisp, refreshing twist to daily supplementation. Each sugar-coated jelly bean delivers essential vitamins and minerals in a tangy green apple taste that makes taking your vitamins a moment of enjoyment. Unlike sticky gummies or bulky tablets, our Vitamin Beans stay fresh, are easy to chew, and transform daily health into a fun, flavor-filled ritual.

Key Benefits ✓

- Supports immunity, energy metabolism, and overall vitality
- Crisp green apple flavour with no artificial sweeteners or gelatin
- Convenient format – no water needed, easy to take anywhere
- Fun jelly bean texture for better compliance compared to gummies or capsules

Recommended Dose

Adults: **6** beans per day (values below are shown per 3 beans).

Once GesünDélé®,
forever a bean lover.

PuraMouv®

Ultra Pure CBD + Glucosamine

Recommended Dose

PuraMouv® combines the purity of science with the power of nature in a next-generation CBD-based topical cream that delivers targeted support for muscle comfort, joint mobility, and recovery.

Infused with Ultra Pure Cannabidiol (0.0 % THC) — the same pharmaceutical-grade molecule used in the clinical program — the formula is enriched with Glucosamine, Menthol, Camphor, and essential oils to provide fast-acting, soothing relief through a gentle warming-cooling effect.

Dermatologically tested and free from parabens, sulfates, or artificial fragrances, PuraMouv® offers a safe and effective way to restore motion and relieve tension — whether for athletes, active individuals, or those seeking daily joint comfort.

Science in Motion.
Relief in Every Touch.

PURA
MOUV®

Key Benefits

- Targets muscles and joints with soothing and cooling botanical actives
- Supports flexibility and recovery after training or daily exertion
- Enriched with Glucosamine for long-term joint comfort
- THC-free Ultra Pure CBD with verified purity and traceability
- Dermatologically tested, non-greasy, and quickly absorbed
- Made in Ireland under GMP & ISO-certified production

Differentiation

- Clinically backed Ultra Pure CBD (600 mg) – 0.0 % THC
- Synergistic actives: Glucosamine, Menthol, Camphor & Essential Oils
- European quality – Made in Ireland, developed in Germany
- Unisex design appealing to athletes and wellness users alike
- Part of the Cebedi® ecosystem under Heilmittel Group

PuraMouv® is a registered trademark of BHW Bayerische Heilmittel Wissenschaften GmbH, Germany.

Science & Innovation

Developed by the scientific team at BHW Bayerische Heilmittel Wissenschaften GmbH, PuraMouv® embodies the company's commitment to evidence-based dermocosmetic innovation.

Its Ultra Pure CBD extract is used in clinical studies conducted in the United Kingdom, the first CBD brand to enter FDA-registered Phase I trials – ensuring pharmaceutical-grade purity, consistency, and proven safety.

Market Position

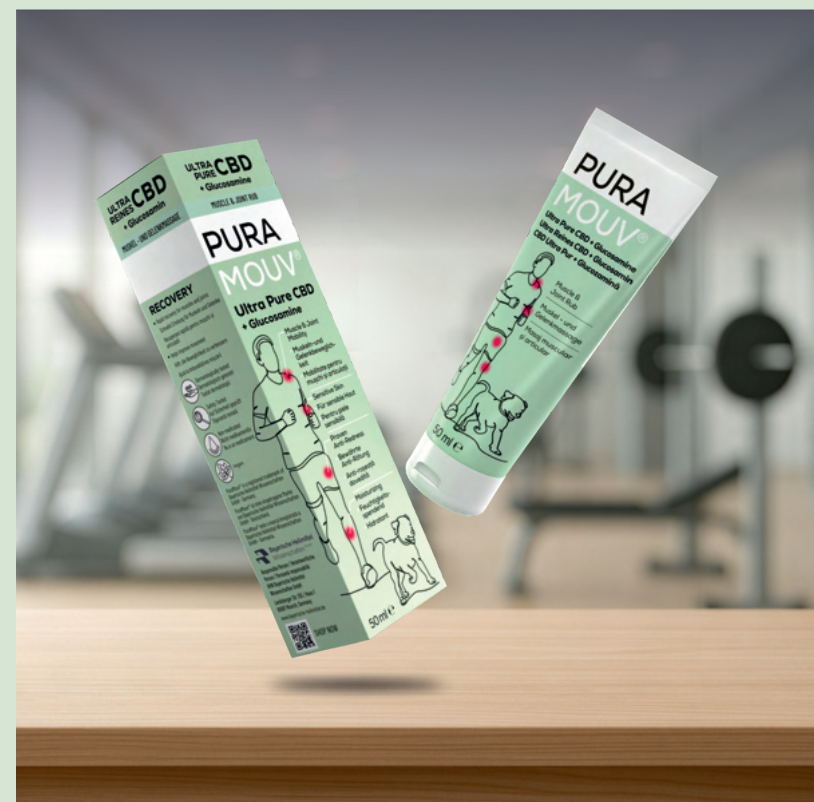

PuraMouv® bridges the gap between dermocosmetic care and scientific wellness, offering a high-performance topical solution for global markets where CBD is approved as a cosmetic or food-supplement ingredient.

Its formulation, clinical integrity, and brand story make it an ideal product for premium pharmacies, sports recovery centers, and e-commerce wellness platforms.

Ultra Pure CBD +Glucosamine

Ideal For

- Athletes and physically active individuals seeking post-exercise relief
- Elderly users experiencing stiffness or joint discomfort
- Office professionals with muscle tension or repetitive strain
- Wellness consumers embracing CBD as part of their recovery routine

Wellness in a Shot
Every Day, Anywhere.

schutz

Daily Functional Wellness Shots.
Science-Driven. Convenient. Delicious.

Schutz®

The Schutz Promise

Wellness in a Shot **Every Day.** Anywhere

Crafted with German precision, Schutz® blends clinically studied ingredients, delicate flavors, and portable dosing, making it the perfect on-the-go companion for everyday wellness.

Designed for daily use, Schutz® combines scientifically backed actives with elegant taste and portable convenience.

The Story Behind Schutz®

In today's fast-paced world, maintaining good health can be a challenge. Schutz was born from the idea of protection—safeguarding health, well-being, and vitality without disrupting modern lifestyles.

The name Schutz®, derived from the German word for “protection,” perfectly aligns with our mission: to provide targeted science-backed health solutions in a fast, effective, and convenient form. But there's more— Schutz® also resonates with “Shots”, emphasizing our unique format: powerful drinkable shots that deliver precise nutrition in just a few sips.

Developed under BHW Bayerische Heilmittel Wissenschaften GmbH, Schutz® merges innovation, elegance, and efficacy in every 10ml or 25ml vial. Whether it's supporting immunity, cognitive function, energy, recovery, or well-being, each Schutz shot is crafted to offer proactive health protection—so you can live fully, feel strong, and stay resilient.

Schutz® isn't just a supplement; it's a movement towards simplified, science-driven wellness in the most convenient and enjoyable way possible.

Obelisko Vitalis®

Obelisko Vitalis® is an advanced men's health formula combining L-Citrulline, Tribulus, Ginseng, Maca, Royal Jelly, Ashwagandha, Zinc, and essential vitamins B6 & B12.

Why Obelisko Vitalis®?

Obelisko Vitalis® is a premium daily shot designed to support men's vitality, energy, and performance — naturally. With a scientifically balanced blend of L-citrulline, tribulus, ginseng, maca, royal jelly, ashwagandha, zinc, and B vitamins, it helps you feel more energized, confident, and ready to take on the day.

- Formulated to help support sexual performance, stamina, and vitality.
- Naturally supports libido enhancement with tribulus terrestris, maca root, and Korean ginseng.
- L-citrulline supports healthy circulation, an essential factor for male performance.
- Ashwagandha and B vitamins help reduce fatigue, support mental focus, and balance stress.
- Zinc contributes to normal testosterone levels and fertility in men.
- Delicious coffee milk flavour for a rich and energizing taste.
- Gluten free and GMO free for broader dietary compatibility.
- Available in 14-day or 30-day packs to fit your lifestyle goals.
- Developed in Germany and produced in GMP- & ISO-certified facilities for premium quality.
- 100% recyclable packaging to support sustainability.

Ideal for men seeking to maintain vitality, enhance natural libido, and support overall performance — whether in daily life, sports, or intimate moments

Why Choose RespiVella®?

RespiVella® is designed for anyone seeking to support their respiratory and immune health — including individuals looking to keep their airways in optimal condition, such as those living with asthma or COPD. Its unique blend of black seed, ivy leaf, echinacea, vitamins, and antioxidants works in harmony to:

- Support normal immune system function with vitamin C, vitamin D, and zinc.
- Help maintain healthy respiratory function — beneficial for those who want to keep breathing easy.
- Provide plant-based extracts traditionally used to soothe and comfort the airways.
- Offer antioxidant protection to help cells combat oxidative stress.
- Deliver gentle daily support for overall wellness in adults and children from 6 years of age.
- Suitable for year-round use, especially during seasonal changes or when you want extra care for your airways, including support for those managing asthma or COPD.

Nutritional Information (Per 25 ml Shot)

Ingredient	Amount	% NRV*
Black seed powder concentrate	200 mg	-
N-Acetylcysteine	200 mg	-
Echinacea aerial parts powder concentrate	100 mg	-
Vitamin D3 (as cholecalciferol)	10 µg (400 IU)	200%
Vitamin C (as ascorbic acid)	75 mg	94%
Zinc (from zinc bisglycinate)	5 mg	50%
Ivy leaf powder concentrate (10% hederacoside C)	30 mg	-

SereNée®

SereNée® is a premium daily drinkable shot, developed in Germany to support women's unique health needs through postpartum recovery, and hormonal transitions. With a synergistic blend of essential vitamins, minerals, botanical extracts, and adaptogens, SereNée® helps maintain energy levels, emotional balance, immune resilience, and overall vitality — naturally.

Formulated with iron and vitamin B6 to reduce tiredness, vitamin D to support immune function, calcium for bone health, and adaptogens like ashwagandha to promote calm and emotional stability, SereNée® is your daily ally for body and mind wellness.

Key Benefits ✓

- Supports Energy & Reduces Fatigue — Iron and vitamin B6 contribute to normal energy metabolism and help reduce tiredness.
- Promotes Emotional Balance — Vitamin B6 supports normal psychological function, while L-theanine and ashwagandha help calm the mind.
- Hormonal & Postpartum Support — Chasteberry and fenugreek are traditionally used to promote hormonal balance and postpartum recovery.
- Bone & Immune Health — Calcium and vitamin D3 help maintain strong bones and a healthy immune system.
- Adaptogen-Enriched Formula — Ashwagandha helps the body adapt to stress and supports overall resilience.
- Developed in Germany, Made to the Highest Standards — Produced in GMP- and ISO-certified facilities for assured quality.
- Delicious Vanilla Flavour — Smooth and pleasant taste to make your wellness routine enjoyable.
- Gluten Free, GMO Free, 100% Recyclable Packaging — For health-conscious and eco-conscious women.

Your Serenity in a shot for
Wellness After Birth.

Why SereNée®?

SereNée® is more than just a supplement – it's a complete wellness companion for women's changing needs. Whether you are preparing for motherhood, recovering after childbirth, or navigating hormonal shifts, SereNée® supports you naturally and effectively.

- Specially developed for postpartum, and hormonal balance.
- Iron and vitamin B6 help combat fatigue and promote normal psychological function.
- Calcium and vitamin D3 support bone strength and immune function.
- Adaptogens like ashwagandha and calming L-theanine help manage daily stress.
- Chasteberry and fenugreek support hormonal well-being and postpartum recovery.
- Available in 14-day and 30-day packs for flexible use.
- Developed in Germany, produced in GMP- & ISO-certified facilities.
- 100% recyclable packaging – good for your health, better for the planet.

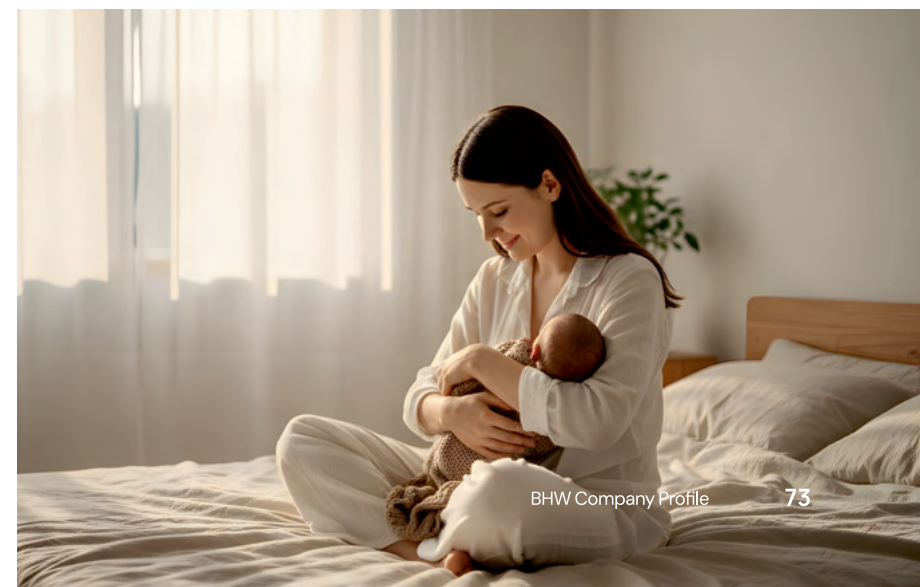

Ideal for women seeking natural support for postpartum vitality, hormonal balance, and emotional resilience.

FocuTory®

FocuTory® is a unique dual-phase food supplement developed in Germany to support focus, concentration, relaxation, and sleep regulation. Specially formulated for children and adolescents with ADHD (Attention Deficit Hyperactivity Disorder), it can also be used by adults who need extra support for mental clarity during the day and restful sleep at night.

1. The Morning Formula provides nutrients and botanicals such as zinc, vitamin B6, citicoline, Bacopa monnieri, and Rhodiola, which contribute to normal cognitive function, focus, and concentration.

2. The Evening Formula contains magnesium, L-theanine, GABA, passionflower, and melatonin, helping to reduce restlessness, calm the nervous system, and promote healthy sleep cycles.

With 7 morning shots (strawberry flavour) and 7 evening shots (caramel & hazelnut flavour), FocuTory® offers a complete 7-day program designed to bring more structure, focus, and calmness to children and adults alike.

Key Benefits ✓

For ADHD Children & Adolescents:

- Helps improve focus and concentration in school and daily tasks
- Contributes to reduced mental restlessness and hyperactivity
- Supports better behavioral balance with calming botanicals
- Promotes healthy sleep patterns

For Adults:

- Enhances mental clarity and focus during busy days
- Helps reduce stress and nervous tension in the evening
- Promotes relaxation and natural sleep onset
- Provides targeted dual-phase nutrition for brain and body

General Advantages:

- Dual-phase system – tailored day & night formulas in one pack
- Gluten free, GMO free, child-friendly flavours

Focus by Day Serenity by Night

Science-Driven. Convenient. Delicious.

XStrahl®

BHW OncoScience

Overview

BHW OncoScience is the oncology and radiotherapy division of BHW Bayerische Heilmittel Wissenschaften GmbH, dedicated to expanding access to precise, evidence-based cancer care. The unit integrates technology selection, clinical protocols, facility enablement, and ongoing support to help providers deliver safe, reproducible treatments with measurable outcomes.

Leadership

The division is led by our in-house oncological radiotherapists, who oversees clinical model design, treatment-pathway development, and physician education. Under their directions, BHW OncoScience bridges industry, healthcare institutions, and regulators to accelerate the adoption of modern, non-invasive radiotherapy.

Clinical Focus Areas

- Skin oncology (e.g., basal cell carcinoma, squamous cell carcinoma)
- Cutaneous lymphomas and selected benign/precancerous dermatoses (per local guidelines)
- Palliative and symptom-relief indications where superficial or orthovoltage X-ray therapy is clinically appropriate

Strategic Scope & Territories

BHW OncoScience develops specialized treatment centers and distributes advanced radiotherapy systems in select markets, with an initial emphasis on Egypt and the wider MENA region. In these territories, the division coordinates with ministries of health, regulators, and hospital groups to align technology deployment with local clinical needs and infrastructure.

Technology Portfolio (with Xstrahl systems)

- Superficial and orthovoltage X-ray therapy platforms for dermatologic and selected oncologic applications
- Treatment planning workflows designed for consistent dose delivery and reproducibility
- Integrated shielding guidance, acceptance/commissioning support, and quality-assurance (QA) frameworks aligned with recognized professional guidance (e.g., IAEA/ESTRO/AAPM)

Precision oncology through technology Training, and implementation

What XStrahl Provides

1. Clinical & operational design

- Site needs assessment, patient-volume modeling, and service-line design
- Room layout guidance and radiation-shielding calculations in collaboration with licensed physics partners
- Care-pathway mapping from referral to follow-up, including documentation templates and consent forms

2. Regulatory & compliance enablement

- Support with device registration, importation dossiers, and hospital licensing requirements
- CE-marked device documentation handling and alignment with international treatment standards
- Safety culture programs, incident-reporting procedures, and audit readiness

3. Installation, commissioning & QA

- Delivery coordination, acceptance testing, and baseline dosimetry/beam characterization with qualified experts
- Routine QA program setup (daily/weekly/monthly/annual checks), record-keeping, and KPI dashboards
- Preventive maintenance schedules and service escalation pathways

4. Training & clinical onboarding

- Multidisciplinary training for radiation oncologists, medical physicists, therapists, and nursing staff
- Standard operating procedures (SOPs), clinical protocols, and patient selection criteria aligned with local standards of care
- Proctored case starts and post-go-live support

5. Lifecycle support

- Spare parts, consumables, and calibration services coordination
- Software updates and enhancements where applicable
- Continuous professional development: workshops, clinical case reviews, and research collaboration avenues

✓ Quality & patient safety

BHW OncoScience embeds quality from day one through structured SOPs, double-check processes, and periodic audits. Facilities are supported to implement robust QA and radiation-safety programs, with traceable documentation and continuous improvement loops.

✓ Access & impact

By pairing appropriate technology with capacity building, BHW OncoScience helps health systems open or expand radiotherapy services that are:

- Clinically targeted (skin and selected superficial indications)
- Efficient to set up and operate within existing hospital footprints
- Scalable across regional networks to reduce patient travel and wait times

✓ Partnership model

We work with public and private providers, academic centers, and NGOs through flexible models—turnkey clinic enablement, technology distribution with training bundles, or long-term managed-service support—always tailored to local regulations and clinical priorities.

✓ KPIs we help institutions track

- Time-to-therapy (referral to first treatment)
- Protocol adherence and QA pass rates
- Unplanned treatment interruptions and service uptime
- Patient-reported outcomes and satisfaction metrics

✓ Next steps in MENA

BHW OncoScience is actively collaborating with clinical leaders and authorities to expand access to superficial and orthovoltage radiotherapy for skin cancers and cutaneous lymphomas. Pilot reference sites are prioritized to serve as regional training hubs and centers of excellence.

Transderm Verpatch®

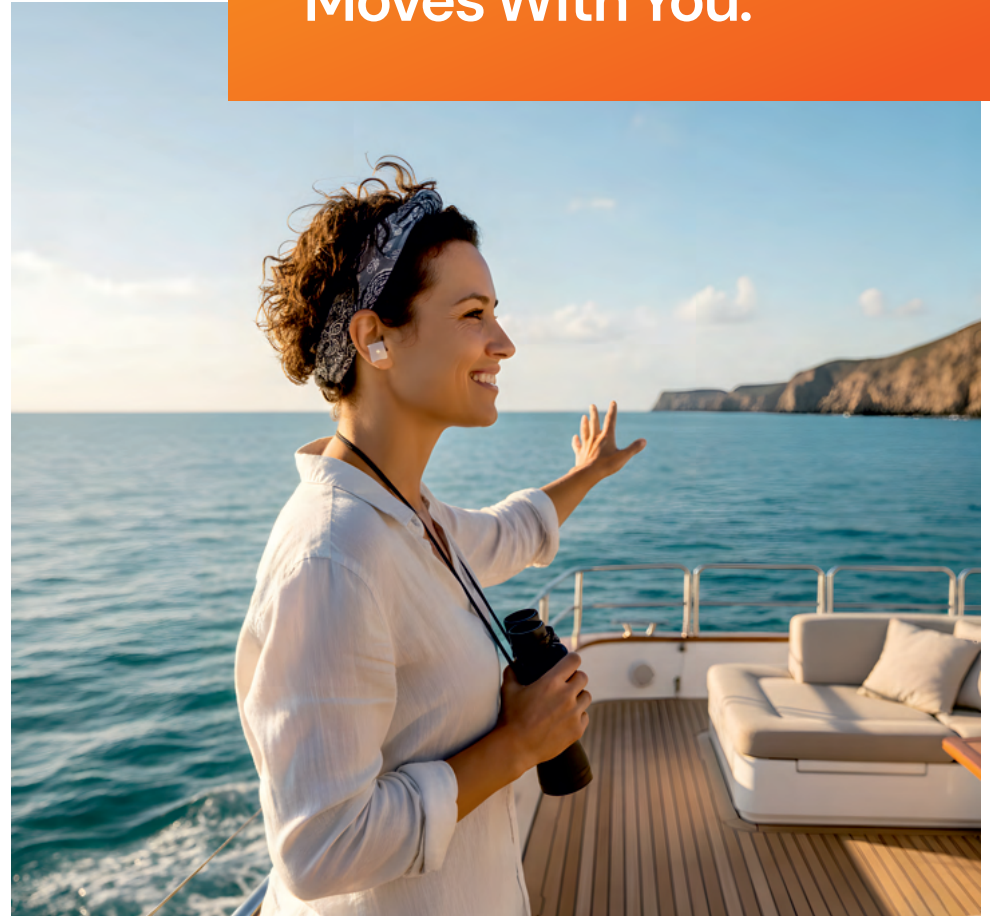

Transderm Verpatch® is an innovative transdermal patch system made in Germany, designed to combine high efficacy with patient convenience. Its first application under development features Scopolamine (1.5 mg), delivered steadily over 3 days, offering long-lasting relief from motion sickness and nausea.

With its discreet design and controlled delivery system, Transderm Verpatch® provides a reliable solution for travelers and patients who require continuous support.

Key Advantages

- ✓ **1.5 mg Scopolamine over 3 days**
consistent, controlled release
- ✓ **High bioavailability**
via skin absorption
- ✓ **Long-acting therapeutic effect**
without frequent dosing
- ✓ **Discreet, non-invasive**
patch application
- ✓ **Versatile support for**
 - Travel-related motion sickness (cars, planes, boats, trains)
 - Chemotherapy-related nausea
 - Chronic balance or vestibular disorders

The Motion Relief That Moves With You.

Science in motion.
Comfort in control.

Peace of mind, Wherever you go.

Pipeline Status

Transderm Verpatch® is currently in the final development stage. Final branding, manufacturing, and market launch are in progress under the Heilmittel Group.

Market Outlook

- Manufacturing & branding in progress under the Heilmittel Group
- Planned launch in North American markets (USA & Canada) in 2026
- Future extensions of the transdermal platform are under evaluation

Disclaimer

Transderm Verpatch® is a pipeline product and not yet available for purchase. Content provided here is for informational and developmental purposes only.

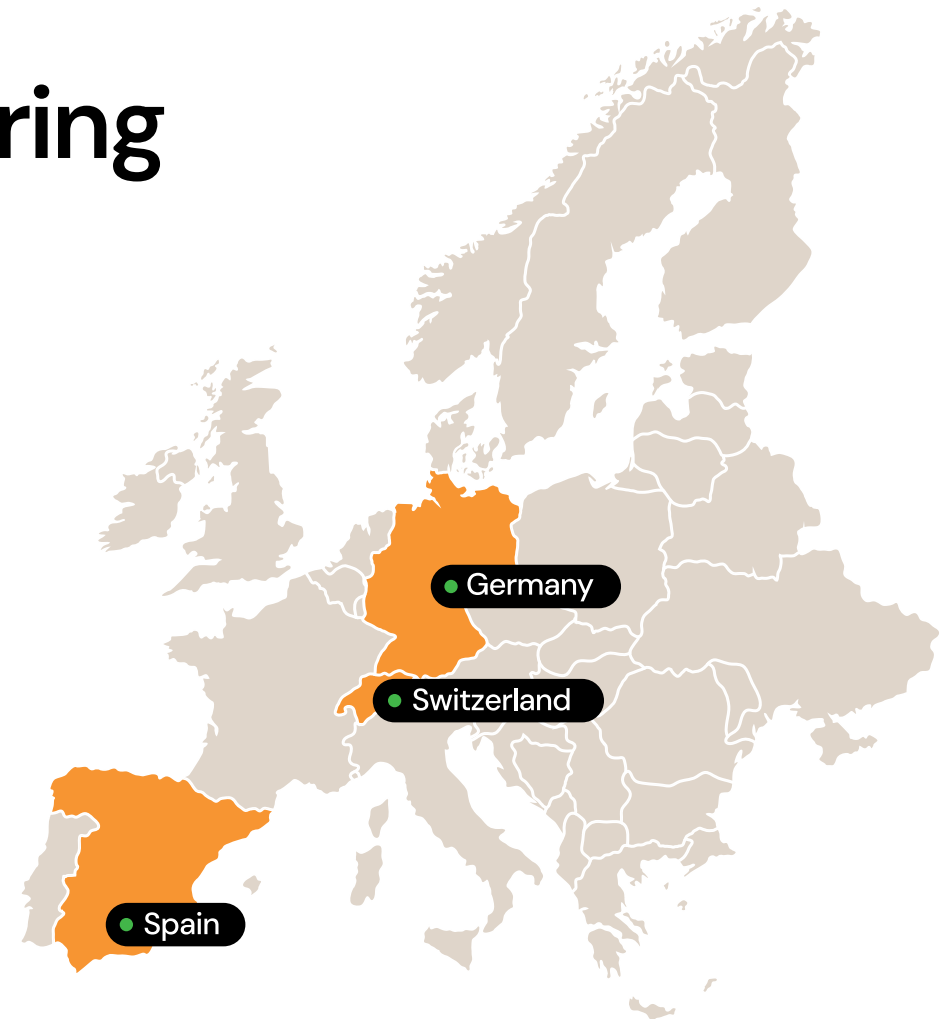

**Innovation with integrity.
Health for every life.**

Private Label & Contract Manufacturing

Your One-Stop Partner for Private Label & Contract Manufacturing

At BHW Bayerische Heilmittel Wissenschaften GmbH, we deliver turnkey private label and contract manufacturing for food supplements and functional wellness products. We manage the full journey—formulation, compliance, artwork & branding, manufacturing, quality control, registration, and launch support—so your brand goes to market faster, safer, and stronger.

All products are manufactured in GMP-certified facilities in Germany, Spain, and Switzerland, under strict European quality and safety standards. BHW acts as your single accountable partner, coordinating every step and supplying all required documentation and certifications—with the rigor and consistency you expect from European manufacturing.

The one-stop shop to build your tomorrow, today!

Launch under your brand with our market-proven SKUs or custom formulations—backed by GMP production, global regulatory support, branding/artwork, and trademark & IP protection services.

Make it in Bayern
Make it BHW

Quality & Certification

Standards & Sites

EU manufacturing (Germany/ Spain/ Switzerland) under GMP and HACCP; typical site certifications include ISO 22000/FSSC 22000, ISO 9001, and IFS/BRCGS. Alignment with US 21 CFR 111 for exports.

Testing & Release

Raw-material ID/purity, contaminants (e.g., heavy metals, pesticides), in process controls, and finished-product assay/microbiology. Each batch ships with a CoA and release dossier.

Stability

ICH-style accelerated and real-time studies to substantiate shelf life; photostability where needed.

Compliance & Labels

Claims and artwork prepared for EU/UK, KSA/GCC, and USA/CA requirements (nutrition/health claims, allergens, mandatory statements).

Traceability

Full lot traceability, supplier qualification, and recall readiness; optional QR/serialization.

Packaging Safety

Food-contact compliant materials; validated seals, tamper-evidence, and child-resistant options.

Optional Certifications (project/site-dependent)

Halal, Kosher, Vegan/Vegetarian, Non-GMO, Gluten-/Lactose-Free, EU Organic; Free Sale Certificates available. EU Organic; Free Sale Certificates available.

Environmental & CSR

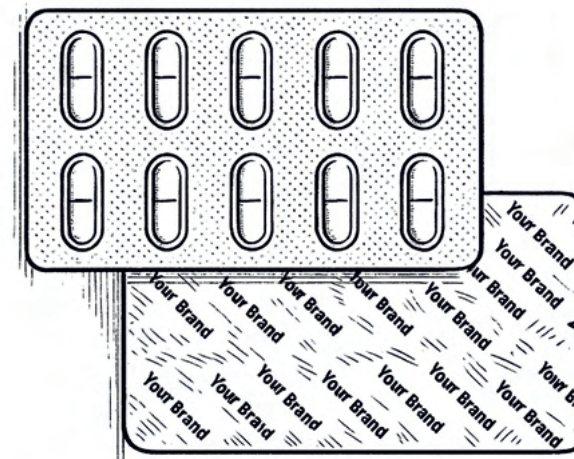

Support for EPR/packaging obligations where required (e.g., Germany), recyclability-minded pack options, and sustainability data upon request.

Note: Certificates vary by manufacturing site and product. Copies and audit access can be provided under NDA.

Artwork, Branding & Marketing

Regulatory-compliant artwork (EU & Saudi) in English/Arabic (+ DE/FR/ES/IT/RO on request) Brand identity development (naming, logo, visual language, packaging)

Trademark filing & protection Marketing materials (sell sheets, retailer decks, e-commerce content, pack renders)

Compliance-Smart Labeling & Claims

We build claims and labels that stand up to scrutiny

EU: nutrition/health claims aligned with EFSA guidance; mandatory statements & QUID where required. KSA/GCC: Arabic/English layouts, compliant ingredient & claims lists, notification/registration support.

US: structure/function claims with DSHEA disclaimers; Supplement Facts compliance.

Canada (NHP): monograph alignment, NNHPD submissions, bilingual labeling.

What We Manufacture

Dosage Forms

Capsules & Softgels

Hard Capsules

Vegan HPMC/cellulose or gelatin

Softgels

bovine/fish/vegan for vitamins, minerals, botanicals, omega oils, probiotics, adaptogens, and blends.

Clean-label choices

titanium-dioxide-free, allergencontrolled, sugar-free, etc

Typical fills

50–1,200 mg powders; 200–1,500 mg oils

Available Packing Options

HDPE/PET bottles (Jar)

Blister packs

Drinkable Shots 10 – 25 ml

Single-dose vials for your formula. Also available for our ready-to-label turnkey formulas for energy, sleep, focus, immunity, joints, beauty, digestion and more.

Flavour masking, low- or no-sugar options, heat-stable colour/flavour systems.

Available Packing Options

Choose between **10 ml** and **25 ml** shots, packed as 10 or 20 vials (10 ml) and 14 or 30 vials (25 ml).

Glass or PET vials with tamper-evident closures

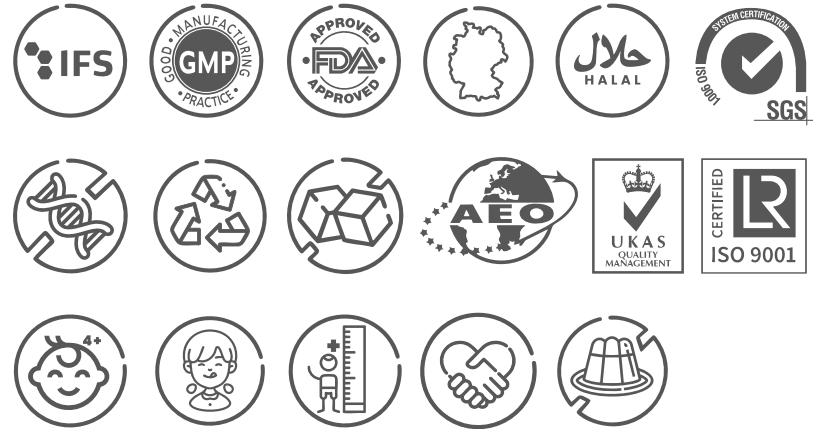

Gummies & Jelly Beans

High-appeal delivery in pectin/gelatin/vegan systems; reduced-sugar or sugar-free options.

Jelly-bean format (non-gummy) with excellent stability in warm climates and low stickiness.

Supports multivitamins, minerals, fiber, collagen, botanicals, sleep/calming and kids' formulas.

Natural flavors and colors available; texture profiles from soft-chew to firm bite.

Available Packing Options

PET bottles (Jar)

Foil Pouches

Liquids & Powders

Liquids

syrups, drops, tonics; true solutions, suspensions, and oil-in-water emulsions (incl. liposomal/nano options).

Powders

water-soluble or direct-to-mouth blends; options for effervescent, agglomerated, or granulated systems.

Available Packing Options

Bottles (30–500 ml)

Amber glass or PET; calibrated droppers, pumps, or measuring cups; tamper-evident and childresistant closures.

Sachets/Stick Packs

on-the-go single doses—powders (2–20 g) and liquid sticks (5–30 ml) with long shelf stability

One-Stop, Integrated Services

- ✓ Formulation & R&D
- ✓ GMP manufacturing (EU)
- ✓ Regulatory & compliance (EU/UK, KSA/GCC, USA/CA)
- ✓ Sourcing & packaging engineering (blisters, HDPE/PET bottles, unit-dose vials, sachets/sticks, foil doypacks)
- ✓ Branding & artwork (naming, logo, packs, content kits, 3D renders)
- ✓ Trademark filing & protection (where applicable)
- ✓ Logistics & go-to-market

Timeline drivers

Use of standard packaging, ingredient lead times, scope of multilingual compliance, and any market-specific approvals/certifications.

Note

Our Marketing, branding, and trademark-filing services are provided complimentary to our customers or against a refundable down payment, fully credited against your first PO (scope and terms agreed in advance).
